# Motorola's new **NATIONWIDE** Push-to-Talk Wave Radio

Combining the ease of a Motorola radio with Verizon's 4G LTE nationwide coverage, quickly connect your team whether they are across town or across the country.

## THERE IS NOTHING ELSE LIKE THIS

- Connect to one worker (up to 300 contacts) or many workers (up to 96 channels)
- Durable, IP54, passes Motorola's grueling Accelerated Life Test of 5 years of operation
- Wi-Fi capable to maintain communication when cellular coverage is limited
- GPS tracking to maximize safety and check status
- Slim and lightweight for one hand operation (5.17" h X 2.31" w X .87" d, 5.87 oz.)
- Digital audio, crystal clear and loud
- LED displays channels and contacts

## BETTER THAN CELL PHONES

- Connect to one worker (like a cell phone), but also connect to many workers
- Eliminate loss of productivity from personal texting, phone calls and web surfing
- Durable, drop it and it does not break, eliminating expensive cell phone replacement costs

FASTENAL NO.	MODEL	CHANNELS	CONTACTS	COVERAGE / NETWORK	MSRP
2173343	TLK100	8 (expandable to 96)	300	Nationwide on Verizon 4G LTE (Activation required)	\$350

## HOW TO GET YOUR MOTOROLA NATIONWIDE PUSH-TO-TALK WAVE RADIO

1. Customer purchases TLK100 radios and accessories. Items ship after programming and activation.
2. Customer is contacted (or call 800-248-5391) to discuss programming options and choose an activation plan.
  - a. Programming options: number of channels, talk groups and contacts.
  - b. Activation plans: Month-to-month or 2-year subscription for each radio purchased. Both plans are \$35/month. If 2-year plan is selected, customer is eligible for a rebate (up to \$300) on their purchase cost.
3. After radios are programmed and activated, they are shipped to customer and ready to use out of the box.
4. Activate new radios or change settings by calling 800-248-5391.
